

src/smart_maintenance
_suite/header/smart_maintenance
_suite.h

```
graph BT; A["src/smart_maintenance_suite/src/smart_maintenance_suite.cpp"] --> C["src/smart_maintenance_suite/header/smart_maintenance_suite.h"]; B["src/smart_maintenance_suite_app/src/smart_maintenance_suite_app.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `src/smart_maintenance_suite/header/smart_maintenance_suite.h`. Below it are two white boxes representing source files. The left box is `src/smart_maintenance_suite/src/smart_maintenance_suite.cpp` and the right box is `src/smart_maintenance_suite_app/src/smart_maintenance_suite_app.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
